

EDUCATIONAL PROJECT (SYNOPSIS)

Centro de Estudos de Fátima is a catholic school which keeps a close relationship with the community; this allows students to benefit from a Christian and humanistic cultural heritage providing them the chance to debate essential issues, raise a critical awareness and learn how to respect others.

The Educational Project introduces the school guiding lines for three school years and it aims at developing students' essential skills for their success so that school may achieve the following goals:

- . the improvement of academic achievements;
- . the increase of activities regarding training and collaborative working;
- . the improvement of communication not only inside the school but also between the school and the community.

Guidelines for the three-year period (2011-2014)

This Educational Project is the result of a combined reflection and it was drawn up according to the legislation in force. After being implemented and evaluated, it should be seen as a reliable indicator to define the next three-year -plan goals so that CEF can continue its educational purpose.
